

WHY VETERANS SERVICE ORGANIZATIONS SHOULD BE MEMBERS OF THE UNITED VETERANS COALITION OF COLORADO (UVC)

As UVC is the largest and most respected advocate for veterans in the state of Colorado, here is why your Veterans Organization should be a member of UVC.

1. There are **no dues or fees** for being a UVC Member Veterans Organization (donations are accepted, but that is your call).
2. You will learn from the many Veterans Organizations that are and have been key members of the UVC over the years, at our monthly Membership meetings where your attendees **will listen, learn, ask questions,** and **participate in all the discussions of matters** relating to the veterans here in Colorado.
3. Often you will hear **presentations from various Government officials** about upcoming or planned events or changes in their procedures that your veterans that you serve will want to know.
3. You are encouraged to **pass out material** that your organization wants put out to the over 100 or so Veterans Organizations that are UVC members and attend our monthly Membership Meetings..
4. You can place information about **your Organization's events** on our UVC web site.
5. If your Veterans Organization has specific questions or needs **advice and help** concerning a problem your Organization is experiencing, you are encouraged to contact us, where we can assign to you for advice an experienced UVC Volunteer who will help you with the problem you are experiencing.
6. UVC will share with all of our VSO's members, **research** information that your Organization may not have received, and/or which might prove valuable to the veterans that your Organization services.
7. And lastly, we hope very soon to be able to have one of our trained UVC Volunteers be available to answer by phone or e-mail, any problems your Organization is encountering with your **website** and/or your **electronic communications**.

And all of this at no cost to you.

If you have any volunteers in your Organization that want to help us at the UVC level, we can certainly use them. Here they would work with the leaders of Colorado's Veteran Community; actively participate in our rather extended and very important legislative activities; meet and work with government officials and officers of the national Veterans organizations; learn and become well versed in services available to our Veterans and their families, become a

spokesperson in your area and possibly beyond at meetings and conferences.
Please ask them to contact Dick Young at dickyoung123@gmail.com
